

CASE

HYDRAULIC EXCAVATOR **CX290B**

IN PROGRESS

Engine Horsepower	154 kW - 206 hp
Operating weight (max)	29.1 t
Bucket capacity	0.47 m ³ to 1.70 m ³

SMOOTH OPERATOR

Responsive hydraulic system with three working modes matches the power and speed to every application. Increased digging forces available with advanced Auto mode and Super Power mode. Rapid slew speeds and high swing torque result in fast cycle times and increased productivity.

Tier III compliant common rail engine combines fuel efficiency with increased horsepower. In combination with advanced hydraulic system results in significant fuel saving, cutting ownership costs and boosting profitability.

High Efficiency. Low Operating Cost.

STRIKING DESIGN

Tough, powerful appearance popular with operators, promoting high degree of satisfaction and boosting performance. New cab structure offers exceptional levels of comfort with ease of operation. Combined with advanced engine and hydraulic mode selection system, results in high productivity with reduced operator effort. Tier III emissions compliant engine uses less fuel and cuts gaseous emissions, improving the environment for all.

Ease of Operation. Environmentally friendly design.

BUILT TO WORK

Inherent durability is instantly obvious in all Case excavators. Robust upper structure and revised boom and dipper design with forged brackets offer strength and reliability. EMS bushes further increase durability, cutting ownership costs and boosting uptime working in difficult conditions. High performance synthetic fibre hydraulic filter protects the system and components, with no need for separate filters when the machine is used with a hydraulic breaker

Strength to perform. Designed to keep working.
